Statement of Work  
UXO Construction Support  
San Dieguito Wetland Restoration Project  
March 14, 2007

In support of the San Dieguito Wetland Restoration Project, Earth Tech will provide a UXO Technician III, as defined by the U.S. Department of Defense Explosive Safety Board personnel qualifications, on an "on-call" basis to respond in the unlikely event of discovery of any item that may present an explosive hazard to personnel or property on the subject project.

Upon discovery of such suspect item(s), Project Design Consultants will contact Earth Tech via telephone or electronic mail and request "on-call" support to identify the item, determine if any potential explosive hazard may exist due to the presence of the item, and to assist Project Design Consultants in contacting the appropriate Emergency Response authority (i.e., San Diego County Sheriff).

If the discovered item possesses a potential explosive hazard, Earth Tech will secure and protect the item until such time as the appropriate emergency response personnel arrive and assume control of the site and item.

Point(s) of Contact for requesting "On-Call" support, in order of contact preference, are:

POC	Title	Telephone	E-Mail
Brian Weith	Section Manager	909-554-5063	Brian.Weith@earthtech.com
Greg Peterson	OE Technical Director	909-645-5531	Greg.Peterson@earthtech.com
Brian Wilson	UXO Technician III	909-645-0207	Brian.Wilson@earthtech.com
John Dickerson	Sr. Geophysicist	909-554-5023	John.Dickerson@earthtech.com
